Notice of Consolidation and Move of the Patent Examining Corps

The Patent Examining Corps is being consolidated from the current 16 Examining Groups into 6 Technology Centers to meet the needs of the public, changing technology and workload requirements.
The current 16 Examining Groups will generally be aligned into Technology Centers as follows. Each Technology Center will have the designated new Technology Center Series number and formation date as set forth below:

Old Group Numbers	New Technology Center Series Numbers	Formation Date (Approximate Date)
2300, 2400 and 2600	2700	November 16, 1997
2200, 3100 and 3500	3600	(January) 1998
1200,1800 and 2900	1600, 2900	(February) 1998
1100, 1300 and 1500	1700	(March) 1998
3200, 3300 and 3400	3700	(April) 1998
2100 and 2500	2800	(April) 1998

Art Unit designations will reflect the new Technology Center Series. As an example, an Art Unit with a designation of 2731 (27-3-1): the first two digits (27) indicate that the Art Unit is in Technology Center Series 2700; the third digit (3) indicates the particular Group; and the fourth digit (1) indicates the particular Art Unit number.

Design Group 2900 will be administratively attached to Technology Center Series 1600, while changing its designation to Technology Center Series Number 2900. The new Technology Centers series and their corresponding industrial and/or technological areas are:

Technology Center Series Numbers	Industry and/or Technological Areas
1600, 2900	Biotechnology, Organic Chemistry, and Designs
1700	Chemical and Material Engineering
2700	Communications and Information Processing
2800	Physics, Optics, Electrical Components, and Engineering
3600	Transportation, Construction, Agriculture, and Security
3700	Mechanical Engineering and Products

The formation of Technology Centers involves the physical relocation of employees and search files. The Technology Centers will be relocated and central telephone and facsimile numbers will be provided as follows:

Technology Center Series Numbers	Location	Telephone*	Facsimile
600, 2900	Crystal Mall-1	308-0196	305-7230
1700	Crystal Plaza-3	308-0661	305-3599
2700	Crystal Park-2	305-3900	308-5401
2800	Crystal Plaza-4	308-0956	308-4084
3600	Crystal Park-1 & 2	306-4177 (Old Gp. 2200)	306-4195
		308-8296 (Old Gp. 3100)	308-8332
		306-4208 (Old Gp. 3500)	306-4216
3700	Crystal Plaza-2,3 & 4	308-1148 (Old Gp. 3200)	305-3579
		308-0858 (Old Gp. 3300)	305-3590
		308-0861 (Old Gp. 3400)	305-3463

*— All telephone and facsimile numbers are area code 703.

It is expected that the relocation and other changes will begin about October 31, 1997, and will be completed in the spring.

The efforts described above will result in many examiners being moved to new offices. All examiners, except examiners assigned to Technology Center 2900, will be reassigned new Art Unit designations. With the exception of the applications in Technology Center 2900, all pending applications will be assigned to the new Art Units. To assist the public in adjusting to the changes, the following guidance is offered:

1. Examining Corps personnel can be reached on the telephone by calling their last known number (e.g., the number shown on the last Office action). The answering receptionist will be provided with a directory of locations and phone numbers which will be updated daily. The caller will be informed of or, if possible, transferred to the new number. The PALM Employee Location Finding System (ELFS) can also be accessed at the PALM terminal(s) located in the Public Search Room to obtain the daily updated locations and phone numbers.

2. The employee information available on the PTO home page (www.uspto.gov) will be updated to provide the customer with current phone numbers of all employees.

3. Persons who are not successful in reaching an Office employee by telephone should call the information number, (703) 308-4357, for the latest telephone number and location of the employee.

4. The receptionist in the Group to which an application was assigned can be contacted to determine the current Art Unit assignment or other pertinent information regarding the application. The receptionist, once assured that the caller is entitled to such information, will provide the desired information.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^2) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
